

WALL STREET.

Market closing—A vigorous raid in late afternoon caused a sharp decline all around, but buying on break was better than selling and prices showed an inclination to rally. The large interests did not show an inclination to force a recovery.

New York Central fell to \$3.5-8, lowest in a generation, but it afterward rallied pretty well and in the opinion of close observers was in an over-sold condition.

Predictions of break in American Telephone and Telegraph were not fulfilled and Chesapeake and Ohio showed notable firmness. Union Pacific acted well and Southern Pacific also gave good account of itself. Market rallied at the close.

Opening was generally low, partly on account of the threat of a big railroad strike. Baltimore and Ohio was weak on fear that floating supply will be increased by distribution of the Union Pacific holdings, which would have a depressing influence on market for that issue. There was a display of strength after opening, but stocks were supplied on advance. Westinghouse sold up to 79 1/4, a new high record. Renewed pressure on New Haven caused a decline to 43 3/4 in early afternoon, and general list sold off.

The Closing Quotations.
